## **DETAILED ACTION**

### ***Response to Amendment***

This Office action has been issued in response to amendment filed 9 May 2005. Claims 1-19 are pending. Applicants' arguments have been carefully and respectfully considered, and are persuasive in light of the instant amendments to the claims.

### ***Allowable Subject Matter***

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to independent claims 1, 7, and 14, at least resuming data access operations to the first and second volumes (following a swap) independent of completion of the background copy, wherein, in response to a data access operation to the second volume and valid data for the data access operation existing only on the first volume, the data access operation to the second volume is satisfied by accessing data from the first volume and wherein, in response to a write of particular data to the second volume, the particular data being transferred from the second volume to the first volume, irrespective of whether the background copy is complete is not taught or suggested by the cited prior art of record. Enablement and written description requirements for the "background copy" feature instantly claimed is provided for on pages 18-19 of the instant specification, e.g. It is also important to note, specifically with respect to claim 14, that the computer program product claimed is inherently stored on a tangible computer-readable medium comprising the computer-executable code

claimed. Claims 2-6, 8-13, and 15-19 depend upon the instant claims, and are allowable for at least the reasons set forth supra with respect to same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
